

Sole Source Procurement

The mission of the Center for Food Security and Public Health (CFSPH) is to work to increase national preparedness for accidental or intentional introduction of disease agents that threaten food production or public health. The Center works to: increase awareness of bioterrorism, agroterrorism, foreign animal diseases and zoonotic diseases; provide tools on biological risk management; and assist local and state governments to prepare for animal health emergencies. The Institute for International Cooperation in Animal Biologics (IICAB) is a part of the CFSPH. The IICAB's mission is to improve the availability, safety, efficacy and use of veterinary biologics (vaccines) throughout the world.

The Center for Food Security and Public Health/Institute for International Cooperation in Animal Biologics has developed and is the sole source for the following materials

- Bioterrorism Awareness Education: Zoonotic Disease Training for Veterinarians and the Public, Train the Trainer materials copyrighted 2003, 2004
