

Zoonotic Diseases of Agricultural Animals

By Species

Zoonotic diseases include a wide range of bacteria, viruses and other microorganism that can cause illness in animals and people. The table below highlights several important zoonoses of livestock and poultry. Most zoonoses can be prevented when proper precautions are taken.

Cattle	 <ul style="list-style-type: none"> Anthrax Bovine papular stomatitis Bovine spongiform encephalopathy Bovine tuberculosis (<i>M. bovis</i>) Brucellosis (<i>Brucella abortus</i>) Campylobacteriosis Chlamydiosis Colibacillosis (<i>Escherichia coli</i>) 	<ul style="list-style-type: none"> Cryptosporidiosis Cysticercosis/Taeniasis Dermatophilosis (rain scald) Dermatophytosis (ringworm) Echinococcosis Giardiasis Leptospirosis Listeriosis 	<ul style="list-style-type: none"> Mites (mange/acariasis) Pseudocowpox Q fever Rabies Salmonellosis Streptococcosis Vesicular stomatitis
Sheep and Goats	 <ul style="list-style-type: none"> Anthrax Bovine tuberculosis (<i>M. bovis</i>) Brucellosis (<i>Brucella melitensis</i>) Campylobacteriosis Caseous lymphadenitis Chlamydiosis Colibacillosis (<i>Escherichia coli</i>) Contagious ecthyma (orf) 	<ul style="list-style-type: none"> Cryptosporidiosis Cysticercosis/Taeniasis Dermatophilosis Dermatophytosis (ringworm) Echinococcosis Giardiasis Leptospirosis Listeriosis 	<ul style="list-style-type: none"> Mites (mange/acariasis) Q fever Rabies Ringworm Salmonellosis Toxoplasmosis Tularemia Vesicular stomatitis
Pigs	 <ul style="list-style-type: none"> Ascariasis (<i>Ascaris suum</i>) Brucellosis (<i>Brucella suis</i>) Campylobacteriosis (<i>C. coli</i>) Colibacillosis (<i>Escherichia coli</i>) Cryptosporidiosis Cysticercosis/Taeniasis Erysipelas 	<ul style="list-style-type: none"> Giardiasis Hepatitis E Japanese encephalitis Leptospirosis Methicillin-resistant <i>Staphylococcus aureus</i> (MRSA) Nipah virus infection 	<ul style="list-style-type: none"> Salmonellosis Streptococcosis (<i>S. suis</i>) Swine influenza Toxoplasmosis Trichinellosis Trichuriasis Vesicular stomatitis Yersiniosis
Horses	 <ul style="list-style-type: none"> Anthrax Brucellosis (<i>Brucella abortus</i>) Colibacillosis (<i>Escherichia coli</i>) Dermatophilus (rainrot) Equine encephalitis viruses (EEE, WEE, VEE) Giardiasis Glanders 	<ul style="list-style-type: none"> Hendra Leptospirosis Methicillin-resistant <i>Staphylococcus aureus</i> (MRSA) Pasteurella (bites) Rabies 	<ul style="list-style-type: none"> <i>Rhodococcus equi</i> Ringworm Salmonellosis Sporotrichosis <i>Streptococcus equi</i> Vesicular stomatitis West Nile fever
Poultry	 <ul style="list-style-type: none"> Avian influenza Avian mycobacteriosis (<i>M. avium</i>) Campylobacteriosis Colibacillosis (<i>Escherichia coli</i>) Cryptococcosis (<i>C. neoformans</i>) 	<ul style="list-style-type: none"> Erysipelas Favus/avian ringworm (<i>Microsporium gallinae</i>) Fowl mites (<i>Dermanyssus gallinae</i>, <i>Ornithonyssus sylvarium</i>) 	<ul style="list-style-type: none"> Histoplasmosis Newcastle disease Psittacosis Salmonellosis
